Mindjewel

Master your jewel

This jewel holds a secret. It's easy to pull it apart but challenging to rebuild. First find the loose end 'gemstone' and peel the jewel completely open. Twist and turn the gemstones on the necklace string to recreate the original jewel in its full, spherical shape. Keep building the jewel up by wrapping the gemstone string around until you have the complete jewel.

A gem of a game!

Feliks 9

Get a rainbow on each side

If you're an avid puzzle solver, it's always a thrill to come across a new challenge worthy of your wit. You'll be thrilled to tackle the Feliks 9. Each of the cube's six sides is comprised of a 3x3 grid of brightly colored panels. Puzzlers must arrange the panels so that each side contains all nine colors. The rows turn smoothly in your hands, and the panels flow seamlessly from one to the next. Enjoy the challenge as you attempt to solve this clever meld of classic brain teasers.

Morph's Egg

Can you get it back to the egg shape?

1. Twist the egg to spin it on any axis.
2. The egg will quickly lose its shape.
3. Solve by getting the puzzle back to its original egg shape.
